Our factory operates entirely on solar energy, ensuring that 100% of our power comes from renewable sources. This initiative drastically reduces our carbon footprint and reliance on non-renewable energy.

We have also adopted sustainable heating systems that utilize waste materials to generate energy, eliminating harmful emissions and making our heating processes both efficient and eco-friendly. Additionally, our UV painting line is designed for minimal waste, utilizing 100% of the paint to enhance sustainability while maintaining superior quality standards.

All KAME products are crafted using FSC-certified materials, ensuring that our wood comes from responsibly managed forests that benefit the environment, society, and economy. We prioritize durability and offer a 5-year warranty on all our products, reinforcing our commitment to quality and longevity. For lacquered products, we created repair kits that can help maintain and extend the furniture's lifespan, further reducing waste and supporting a more sustainable lifestyle.

At KAME, sustainability is not just an initiative—it is a fundamental responsibility. We will continue to innovate and enhance our practices to contribute to a greener future while delivering high-quality, eco-friendly products to our customers.
